14:15 Individual Agility M
Judge: Michiel Lazeroms

Closing Ceremony

MARKO MÄKELÄ

FINLAND

My name is Marko Mäkelä and I started agility in 1993 with our family sheltie when I accidentally heard about this sport in some "arkitotelevaisuus" class. I never even thought I would start to compete, but one thing led to another and now I have been teaching agility full-time since 2009. 2017 I became an FCI judge. When designing courses Safety for sure is number one criteria. After safety comes fun and interesting challenges for the level of the event. I can't wait to feel the excitement in and outside of the ring and also feeling the great atmosphere in this high level event!

JUDGES

REETTA PIRTTIKOSKI

FINLAND

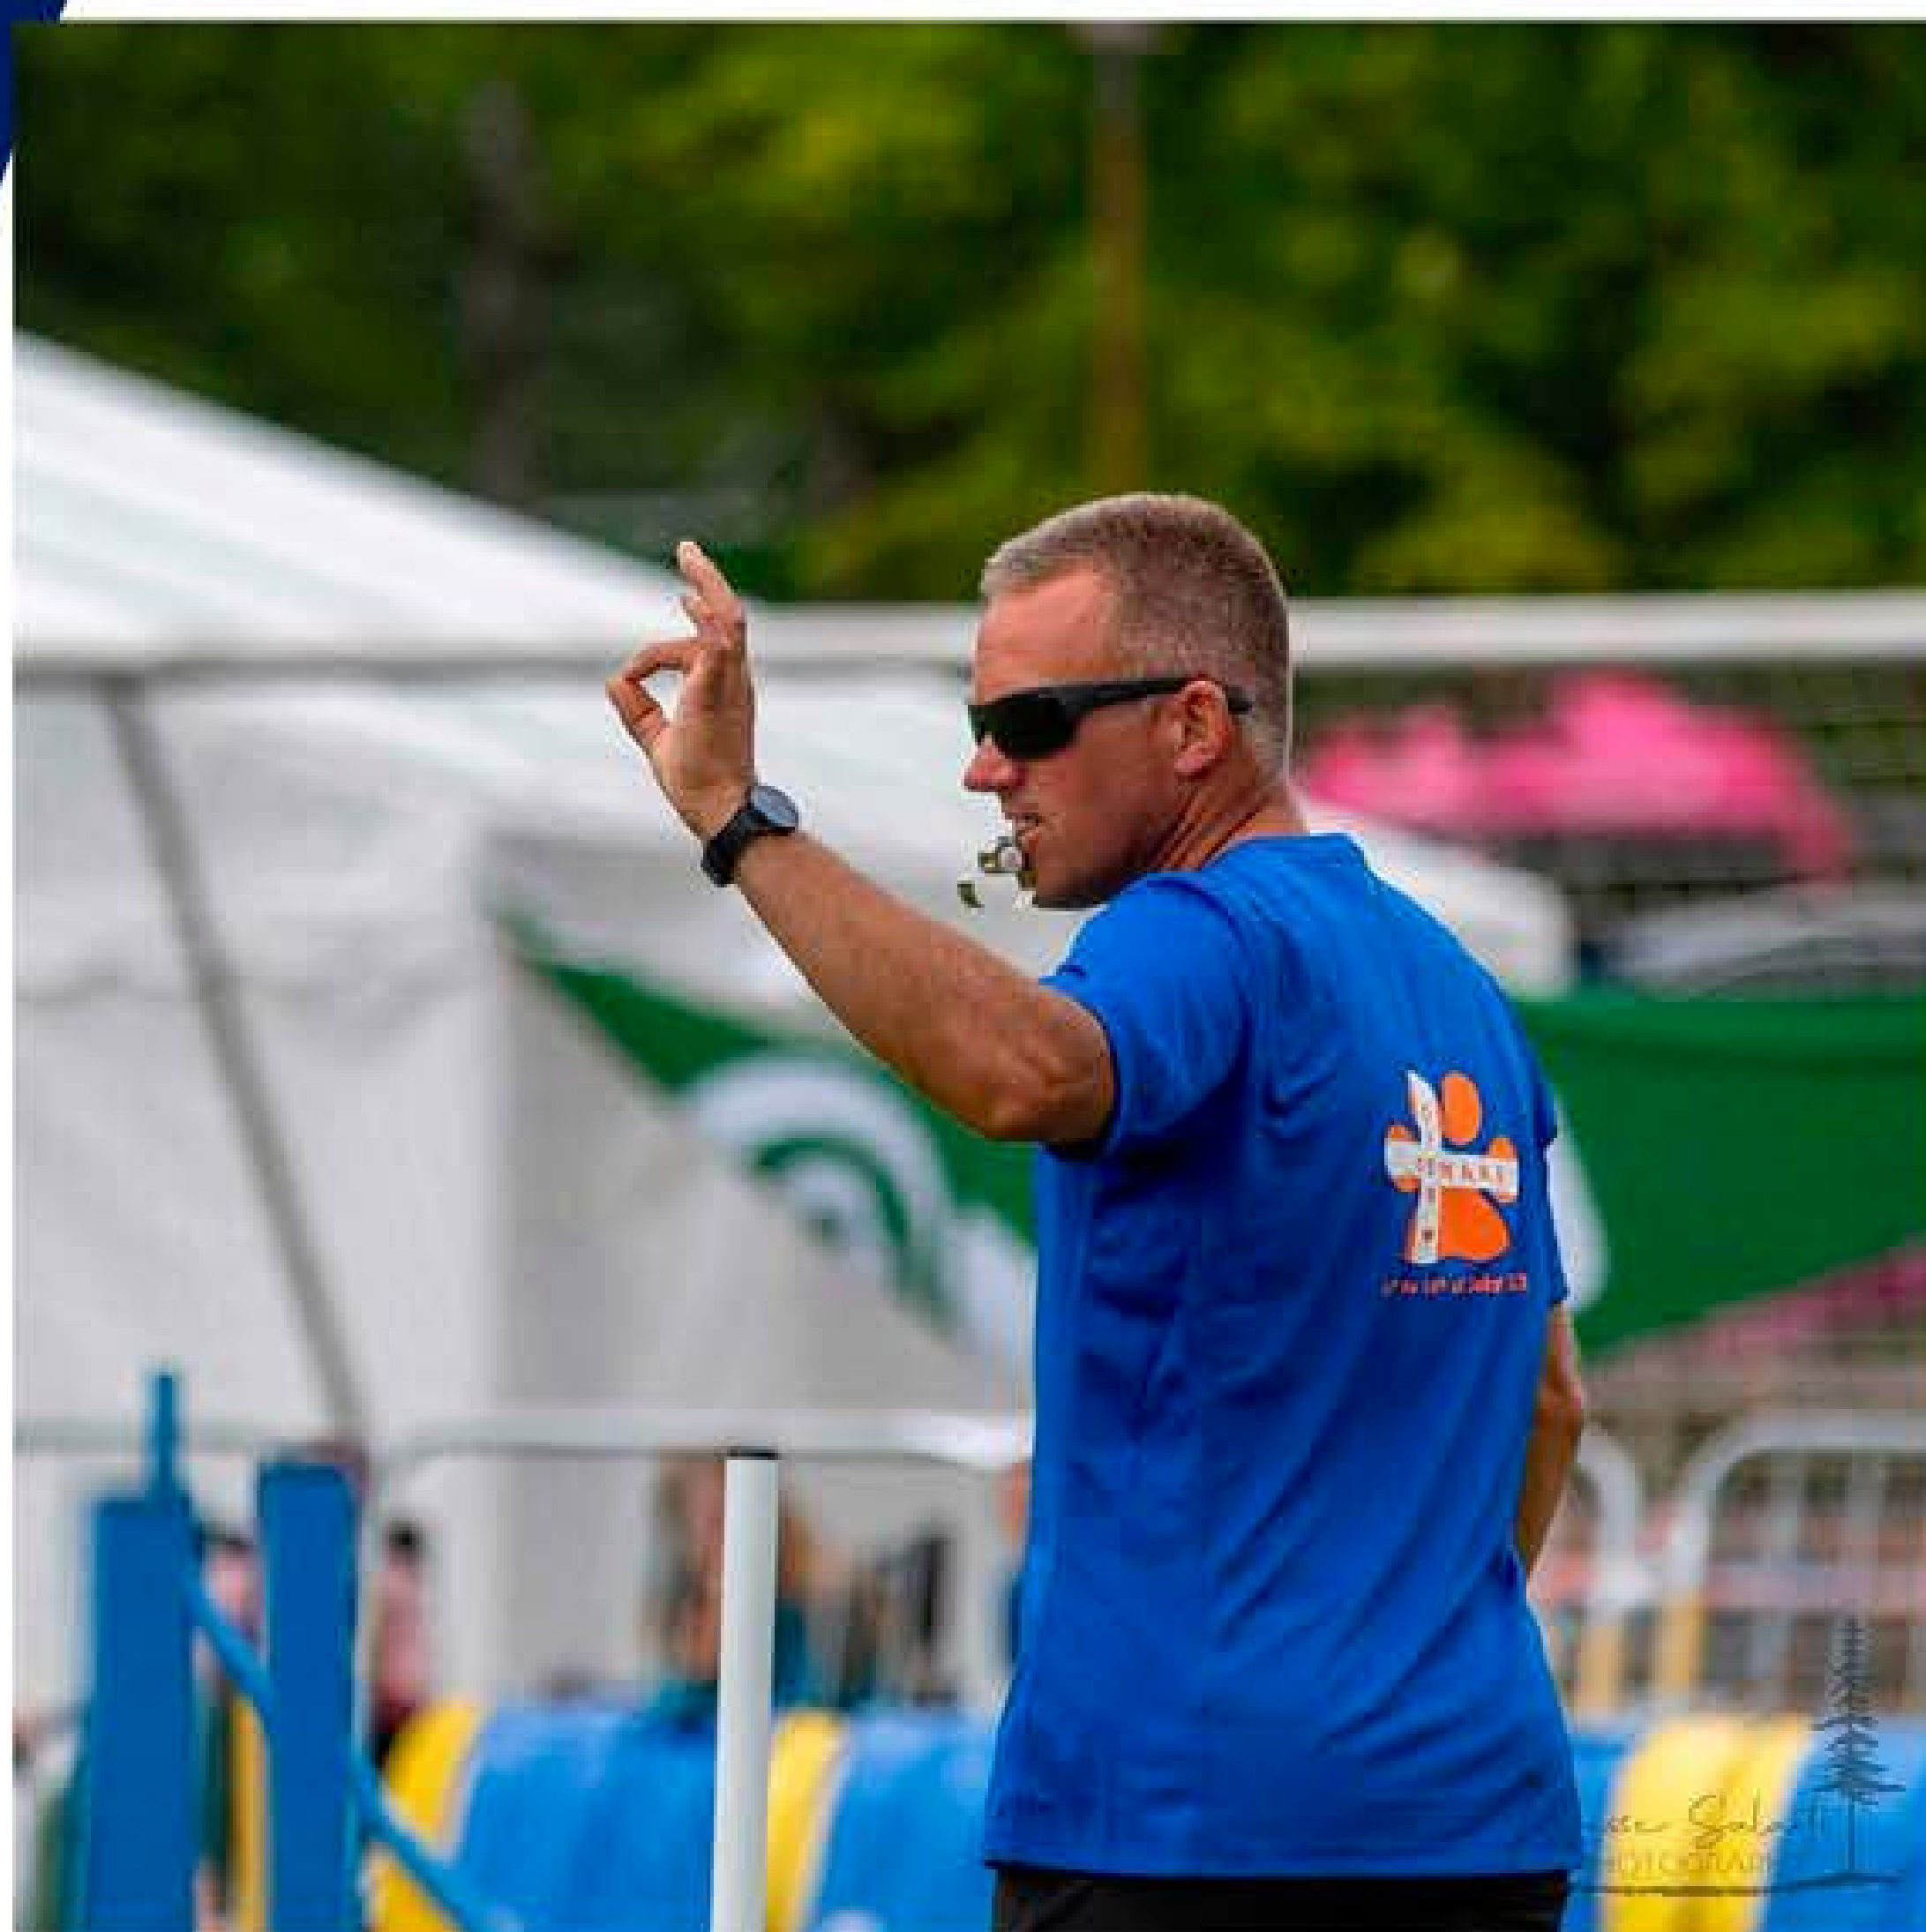

Judging is her greatest passion, and the coolest thing she knows, is when her course plan comes to life with each team choosing their own path and creating their art more beautiful than the other! Her coursedesigns give the handlers a possibility to find the best route or utilize the dogs skills to achieve a flow normally only found in rivers carved in stone.

Whether it's judging or coaching, her radiating laughter makes her easy to find while transferring her immense joy and passion to all others around her.

MICHIEL LAZEROMS

NETHERLANDS

My name is Michiel Lazeroms, I am 48 years old and I live in Oud Gastel, the Netherlands, together with my wife Ingrid and our five Border Collies. Competing at this high level (Grade 3) and judging alongside it has created the perfect balance for me. I firmly believe that doing both helps you grow into a better judge, while also continuously improving yourself as one.

When judging it gives me great pleasure to see different handling styles and skills form the different combinations.

MARLEEN HAENEESTINGELS

BELGIUM

My name is Marleen Haeneefstingels. From a very young age, there has always been a dog in my life. As a child, I already shared a very special bond with dogs – and apparently also with red or brown ones, as they seem to be a constant presence throughout my life. When I design a course, one thing always comes first: the safety of the dog. Without any doubt. A dog should feel safe, confident, and truly enjoy moving through the course.

I love flowing lines that feel natural and inviting, gradually leading into more technical challenges. This creates a balance between rhythm and focus, between enjoyment and precision.

Most of all, I believe a course should encourage the independence of the dog – a dog that dares to think, make decisions, and work with confidence as a true partner.

535 Competitors
